

WESTS ♥ THE ENVIRONMENT

At Wests Group Macarthur we are committed to a stronger, more sustainable future. Check out the latest in our sustainability news.

AT WESTS GROUP MACARTHUR, WE ARE LEADING THE CHARGE ON SUSTAINABLE FURNITURE!

We are committed to making a positive impact on both our environment and our communities by demonstrating a proactive approach to reducing waste of furniture pieces. By refurbishing old furniture and donating it to charities we are not only minimising our environmental impact, but also providing essential resources to those in need.

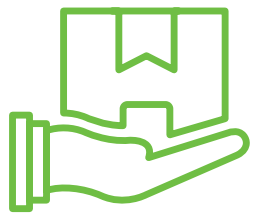

Furniture is often made from materials such as plastics, metals, and treated timber, which take decades—if not centuries—to decompose. By refurbishing and reusing furniture, Wests are preventing these materials from ending up in landfill and alleviating the pressure on waste management systems.

But it's not just about the environment—it's about leaving behind a greener & cleaner planet for future generations. Every piece of furniture counts in this effort!

Here is a summary of our recent efforts:

WESTS LEAGUES CLUB:

We have successfully revamped nearly half of the gaming floor furniture. Plus, we sourced all our materials from a trusted Australian supplier, supporting local businesses and reducing delivery times.

Reuse and Upcycling in Action:
We're not just refurbishing our own furniture—we're sharing the love with other local clubs!

CAMDEN SPORTS CLUB

We provided 28 gaming chairs for use in their gaming area.

BUNDEENA BOWLING CLUB

Received 9 chairs, helping them improve their gaming area.

FORBES SERVICES CLUB

Recently picked up 100 gaming chairs and 80 machine bases for use in their gaming area

REDUCING WASTE

Supporting Sustainability: 246 Books Donated!

As part of our ongoing commitment to sustainability, we've donated 246 books to local libraries and community organisations. By sharing these resources, we're not only promoting education and literacy but also helping reduce waste and encouraging the reuse of valuable materials. It's a small step toward a more sustainable future, one book at a time!

Battery Recycling:
Giving New Life to Old Power!
We've recently recycled a variety of batteries, including:

- D batteries
- AAA batteries
- AA batteries
- 9V batteries
- C batteries
- 6V batteries

Recycling these power sources helps keep harmful materials out of landfill and ensures that valuable components can be reused. Every battery counts toward a cleaner, more sustainable future!

GIVING BACK TO THE COMMUNITY

- Throughout the last 12 months, our team has volunteered 95 times. We're proud of the positive impact we're making both locally and for the planet.

- In conjunction with Macarthur Stormchasers, we have recently installed a weather station on the top of the Wests Leagues club.
